

## To create Operating System ISO

### Steps:

1.Download the Create windows 10 installation media from browser

2.Double click on it

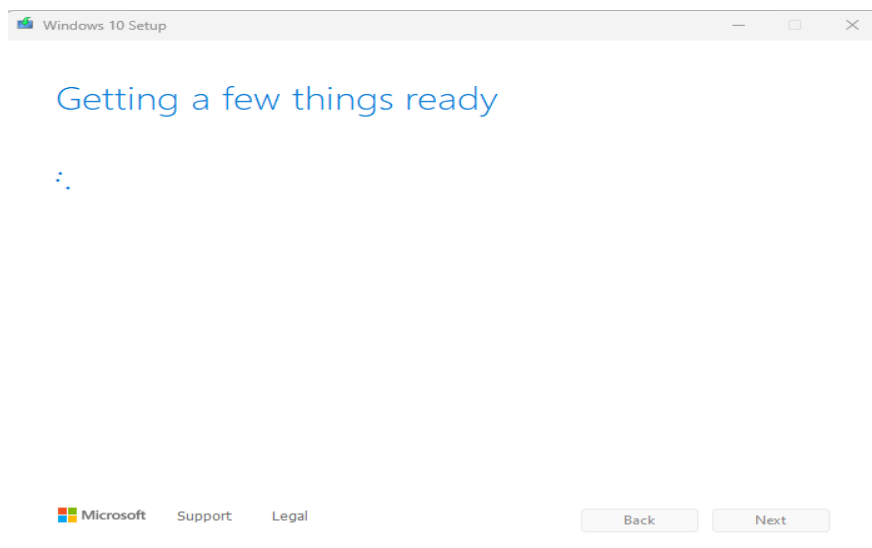

### Create Windows 10 installation media

To get started, you will first need to have a licence to install Windows 10. You can then download and run the media creation tool. For more information on how to use the tool, see the instructions below.

[Download Now](#)

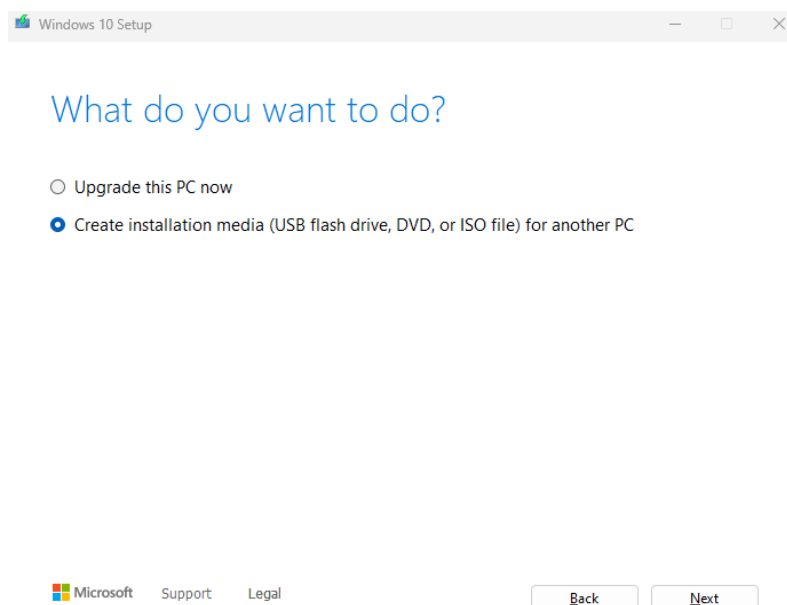

[Privacy](#)

3.Click on Accept.

4. Select Create installation media for another PC, click on Next

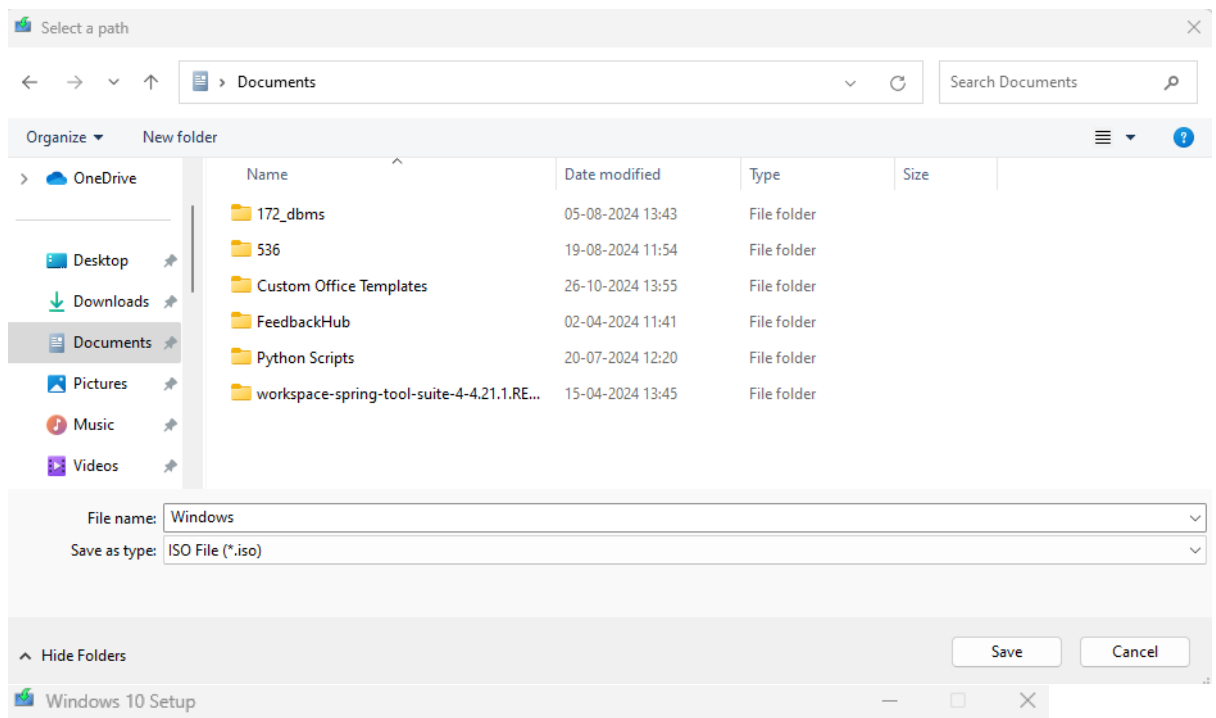

5. Check the details, edition: Windows 10, Click on Next

6. Select ISO File, Click on Next.
